Election Results Discounted and No Support Shown.

That he refrained from doing so was probably to his mind the strongest kind of reason why Stuyvesant Fish should U.S. Pipe. 700 474 474 47 47 484 feel it a duty to render in return any kind of service which it might be in his power to render. The opportunity came when Fish was chosen as one of the committee to conduct the investigation from within cf the Mutual Life's affairs. But Fish instead Washab fid. 600 42 42 42 42 42 Mutual Life's affairs. But Fish instead Washab fid. 600 42 42 42 42 42 484 Mutual Life's affairs. Mutual Life's affairs. But Fish, instead of consulting the wishes of Harriman in this matter, determined in his old-fash ioned ideas of honesty, that the investigation of the state of the gation should be as thorough as it was possible to make it, no matter whose repu-

From that day till this Harriman has aursed his "righteous indignation," and became more and more convinced of the need of progressive methods in the management of the Illinois Central

Many Want New Blood.

The other interests in the Illinois Cen tral board which to-day allied with Harriman could probably have been lined up in favor of the infusion of new blood into the management years ago, and it was therefore only natural they should have been found on the Harriman side. With the former friendship, or the present enmity, between Harriman and Fish, they had nothing to do, but as many of them desired a change they could hardly be expected to do otherwise than to accep the opportunity to bring it about with out consideration of the motives actuating the leader in the movement.

The change will be to their benefit as to that of the great body of stockholders, but the fact remains that the move ment which has just resulted in a change In the presidency of the road had its inception in the fact that Stayvesant Fish

and the courage of his convictions. One of the rumors brought out in the sharp rise in the Hill stocks in the first bour was that a 65 per cent distribution would be made to stockholders of Northerh Pacific—25 per cent in cash before December 31, and 40 per cent in stoclearly in 1907. This story was pronounced premature in the best informed cir

That there will be rights on Northern Pacific and on Great Northern within the next few months, apart from such bene fits as may come to stockholders from the sale of the ore lands, is altogether prob able, although the restlessness of the rall road labor may have a considerable bear ing on the subject. The railroads are confronted with a serious problem, as even a partial tie-up of traffic would

cause very serious inconvenience

Lack of Terminal Room. The magnitude of the problem now con fronting the railroads is not realized by the average citizen, nor, for that matter by the average railroad official. Even as suming that all labor differences should be adjusted without any tie-up of traffic the roads would still be up against ithow hard a few facts may serve to show

The traffic between New York and Chi cago, for instance, has about doubled in the past eight years. The railroads have endeavored to keep pace with it, but hav been unable to obtain the facilities, par ticuarly terminal accommodations. They have enough cars and to spare if only the

cars could be moved quick enough. Freight cars do not move on the aver age more than twenty or twenty-five miles a day. So far as the transportation of freight is concerned, only about one hour's freight is concerned, only about one hour's service is obtained from them out of twenty-four. The trouble is that the roads need more tracks, and, above all, more terminal room, and this, in large cities, is particularly unobtainable.

It has been estimated that terminals in New York City for a new four-track trunk

In the pactic 4s. It is the street of the street

line would cost anywhere from \$125,000,000 to \$150,000,000, and that such a road could not obtain and equip terminals on the Jersey City water front for less than

High Price for Silver.

Director of the Mint Roberts yesterday purchased 100,000 ounces of silver for subsidiary coinage to be delivered at the Den-92 ver Mint. The price was 71.585 cents per fine ounce, the highest in recent pur-

LOCAL PRODUCE MARKET.

BUTTER-Market unchanged. Creamery, fancy

as an advance in their discount rate to 7 per cent is at all impending.

Here rates for money maintained a firm unbroken front, and it was rumored that as high as 6 per cent was paid on six as high as 6 per cent was paid on six months loans made on collateral of the first class. A very favorable omen regardsing the local money situation is, of course, the advance to a premium from a very heavy discount of exchange on this city in the leading Western financial center.

The market feature of to-day was, as has been stated, the rise in the so-called Hill group of stocks, and the only explanation of this was old stories of the supposed and armses of the time when the great Northern Fullides States Corporation ore deal will manifest itself in a distribution to the stockholders of the companies holding the ore lands in question. It is a common impression, although it may be unfounded in Wall street, that in addition to the issuance of new stock by the first normal pression, although it may be unfounded in Wall street, that in addition to the issuance of new stock by the first allows the probability of the ore land lease, the Northern Pacific Railway Company arising out of the ore land lease, the Northern Pacific Railway Company arising out of the ore land lease, the Northern Pacific Railway Company arising out of the ore land lease, the Northern Pacific Railway Company will in the next of the company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the next of the ore land lease, the Northern Pacific Railway Company will in the

FINANCIAL.

FINANCIAL.

Bank Depositors:

-Do you know that a good investment will give the same security as a bank, and yield better profits?

-Are you aware that in Washington the banks are paying from 6 per cent to 29 per cent per annum to their stockholders? Do you know that this money is earned out of your deposits, and that in addition to these earnings the bank must earn enough more to pay running expenses? And furthermore, the surplus of these banks, after running above a million dollars, is earned out of your

-Why don't YOU invest? There are plenty of safe investments earning as high as 7 per cent. I have several good investments on hand, and among them a limited amount of a 7 per cent preferred stock of an established life insurance company. Insurance stock is of the safest and most remunerative investments known. stock is being sold for the same reason that a bank sells its stock-to increase its friends and influence.

-A postal will bring descriptive literature to you. Thomas D. Garfield.

MONEY TO LOAN AT LOWEST RATES OF INTEREST

COTTON HARKET.

Market very dull; prices lower.

CATTLE—Extra. 4.75 to 5.09 per cwt.; butchers.
4.00; ordinary. 2.50.

HOGS—Per cwt., gross. 6.25 to 6.50; ordinary. 5.50.

SHEEP—Clipped, 4.00; medium, 3.30 to 3.75.

LAMBS—Per pound, spring, choice, 7 to 7½; medium.
6.5; grass. 4 to 4½.

COWS—Each, price. 40,00 to 50.00; common, 20.00 to 30.00; old and dry, 8.66 to 16.00.

New York, Nov. 7.—The cotton market was barely steady, at a decline of 15 to 20 points to-day, with more or less pressure from bedge selling and liquidation. Liverpool sent disappointing advices, and while the market did not open as low as was due on cables the pressure of selling scon caused a sag. Fear of a bearish Ginners' report was the chief cause of nervousness. The National Ginners' Association issued a report stating that 7,100,600 bales had been ginned to November 1. This is not impossible, considering the improvement in ginning facilities. Southern spots generally quiet, 1-16 to ½ lower. Port receipts estimated at 70,000.
